

CONTROLLED PIT STOPS:

1. Controlled Pit Stops will be utilized at the 'Money in the Bank', where no car will lose positions in regards to other cars that pit under the same caution period, and teams will have at least three laps to service their car during a caution period, unless declared a 'Quickie Yellow', which will be when a simple caution occurs. If you pit on a Quickie Yellow you will start at the tail of the field.
2. Only the first caution lap (on the leader) will be counted during each caution period. During the time the caution laps are no longer counting, and once the "Pits are Open" is when you can enter pit lane and conduct your "Controlled Pit Stop", where you will have up to three laps to service your car, fuel, tires, etc., without losing positions in relation to other cars that pit under the same caution period. If you do not pit when the pits open and decide to the next lap you will lose your position.
3. If you enter pit lane before the "Pits are Open", you will restart at the tail of the longest line.
4. If a green flag run goes 40 laps without a caution, a 'Competition Caution' will be utilized within the next 15 laps. For example, if there is a caution at lap 22 and the green is displayed again on lap 30, if no caution falls prior to lap 70, a 'Competition Caution' will be displayed between lap 70 and lap 85. This will not be in affect 20 or less laps to go in the race.
5. For the race you will be allowed a total of 6 tires, four qualifiers and two tires to change during a Controlled Pit Stop during the race. These two tires must be your approved race tires and will remain impounded until race time.
6. The pits will be "closed" once the yellow flag is displayed and will stay closed until opened by Race Control.
7. Stop 'n' Go Sign at the end of the pit road must be observed; those disobeying will be placed at tail of longest line at a minimum. Pit lane speed will be enforced.
8. Must stay behind Pace Car at all times, do not move ahead of Pace Car.

"Thank you for competing with the SRL National at Berlin Raceway"
